

# Life Insurance and Preconditions

Getting a life insurance policy can be complicated, but the situation becomes even more difficult if you have a serious precondition. There are three various categories of Life Insurance to choose from. The type of policy you can obtain relies heavily on your health and preconditions.

	 Traditional Life Insurance	 Simplified Issue Life Insurance	 Guaranteed Issue Life Insurance
 Description	You need to complete medical tests along with an extensive medical questionnaire.	You need to complete a short medical questionnaire but no medical tests are required.	Medical tests and questions are not required. Everybody qualifies regardless of preconditions.
 Your rates	 The lowest rates (esp. if you are in good health).	 Relatively high rates	 The highest rates
 Dealing with preconditions	Numerous pre-existing conditions / critical illnesses will sometimes not allow this insurance.	You can qualify for this type of insurance if you have some complicated pre-conditions / critical illnesses.	You can qualify independently of your pre-conditions.
 Maximum Coverage limits	 \$3,000,000 – \$5,000,000	 \$50,000 – \$300,000	 Up to \$25,000
 Warnings	None, outside of the two year suicide and incontestable clause that is within all life insurance policies	This insurance comes either with immediate payouts (your claim will be paid even if you die directly after buying a policy) or deferred payouts (your claim will not be paid if a death occurs within initial 1-2 years (timing depends on the policy))	This insurance typically has a 2-year waiting period, meaning if you die within the first 2 years, no claim will be paid.

If you have this precondition...	... you can expect to get these types of insurance
